	for Network Firewalls' reports.	Quadrant for Network Firewalls reports starting in 2022 2. I noticed a clause specifying that the firewall must be listed in the Leader Quadrant of the Magic Quadrant. Since only a few firewalls are listed there, I am unable to include our desired firewall due to this restriction. It would be helpful if this clause could be modified to allow for a broader selection of firewall vendors, enabling our participation. Your understanding and support in this matter would be greatly appreciated. 3. Consider the change - OEM of the proposed firewall should be listed on Gartner Magic Quadrant as per last Gartner Report. 4. The proposed product's original equipment manufacturer should be listed in the ANY quadrant in the last published Gartner Magic Quadrant for Network Firewalls.
